SHIFTWORX

ShiftWorx works in combination with our machine monitoring hardware
to visualize machine performance details in a simple and easy to use dashboard.
ShiftWorx displays value-adding and non-value adding activity, inputs,
KPI's and is the first step to engaging operators and increasing productivity.

| Blue bar tracking value-added activity for each machine | Simple, easy to understand dashboard |
| KPIs to measure productivity | Downtime tracking with reason codes |

When used correctly, this monitoring and visualization tool can have a _double digit_ improvement on productivity alone
